To Whom this may concern:

It is my understanding that you are proposing to raise my sewer and water rates once again.

I am a 97 yr old widow and cannot afford for you to raise my rates once again. It seems that your raises are coming more frequently than in the past How do you expect seniors to survive in this world with the constant hikes in prices for everything. The medical bills at my age are tremendous. You are already charging me for 2 hookups when I have only have one which I feel is very unfair. I was told that you were going to put in an additional water meter which never happened either.

I am voting against another raise!!!

I am against another raise in rates for both sewer and water.
